<i>Academic Text by the Author</i>	vii
<i>Preface</i>	xi
<i>About the Author</i>	xiii
<i>Summary of Chapters</i>	xxiii
<i>The Important Formulas</i>	xxvii
1. Introduction: Stock Markets, Investments and Corporate Financial Decision Making	1
2. A Short History of Stock Markets	13
2.1 Markets in recent times . . . . .	15
2.1.1 A performance in three acts . . . . .	15
2.1.1.1 Supporting cast for the stock markets and large firms . . . . .	15
(1) The commercial banks . . . . .	15
(2) The investment banks . . . . .	15
(3) The money markets . . . . .	17
(4) The Central Banks (the Federal Reserve in the US) . . . . .	18
(5) The government . . . . .	19

	(6) The professionally managed funds: Mutual funds/hedge funds/insurance funds/pension funds . . . . .	19
	(7) The credit rating agencies . . . . .	20
	(8) The Basel Committee on Banking Supervision . . . . .	20
	(9) The economy . . . . .	21
2.2	Prologue: The early background economy . . . . .	21
2.2.1	Act I: The 1980s Bull Market and Black Monday	23
2.2.2	Act II: The dot.com bubble and Black Friday . .	37
2.2.3	Act III: Securitization and the global financial crisis . . . . .	43
3.	The Time Value of Money and Financial Planning	67
3.1	Introduction . . . . .	68
3.2	The time-value of money: Discrete returns, compounding and discounting . . . . .	69
3.2.1	Percentages as fractions . . . . .	69
3.2.2	Single-period growth . . . . .	70
3.2.3	Multiple period growth . . . . .	71
3.2.4	Discounting . . . . .	72
3.3	Perpetuities and annuities . . . . .	73
3.3.1	A growing perpetuity . . . . .	73
3.3.2	A perpetuity . . . . .	74
3.3.3	Present value of an annuity . . . . .	75
3.3.4	Future value of an annuity . . . . .	76
3.4	Quarterly (and semi-annual, etc.) payments . . . . .	78
3.5	Life policies . . . . .	80
3.6	Planning for retirement . . . . .	82
3.7	Real rates of return . . . . .	84
3.8	Planning for retirement allowing for money purchasing power . . . . .	87
3.9	Repayment of a mortgage . . . . .	89
3.10	Time for reflection: What have we learned? . . . . .	90
4.	Market Debt, Interest Rates and Bond Valuation	95
4.1	Introduction . . . . .	96

4.2	Short-term financing: The money markets . . . . .	97
4.2.1	Finance companies . . . . .	100
4.3	The role of a central bank in determining interest rates . . . . .	101
4.4	Long-term debt . . . . .	102
4.5	Valuation of bonds . . . . .	104
4.6	Required discount rate and risk of default . . . . .	108
4.7	Interrogating bonds . . . . .	110
	(i) The expectations hypothesis (anticipation of interest rates) . . . . .	110
	(ii) The liquidity hypothesis (interest rate risk) . . . . .	113
	(iii) The segmentation hypothesis (segmented markets) . . . . .	115
4.8	Time for reflection: What have we learned? . . . . .	116
5.	The Valuation of Equity Shares . . . . .	125
5.1	Introduction . . . . .	126
5.2	The provision of equity finance . . . . .	127
5.3	Share price response to new equity issues . . . . .	128
5.4	The discounting of dividends model of share valuation . . . . .	134
5.5	A firm with a fixed growth . . . . .	137
5.6	A firm with zero (real) growth . . . . .	139
5.7	Motivation for dividends . . . . .	141
5.8	Self-sustaining growth . . . . .	143
5.9	The $P/E$ ratio . . . . .	147
5.10	Share price determination in practice . . . . .	153
	5.10.1 Fundamentals as a basis for share valuation . . . . .	153
	5.10.2 The psychology of the market . . . . .	154
5.11	Time for reflection: What have we learned? . . . . .	155
6.	Shareholders' Required Rate of Return (The Cost of Equity Capital) . . . . .	165
6.1	Introduction . . . . .	167
6.2	The CAPM as a determination of the discount rate . . . . .	167
6.3	Empirical issues with the CAPM . . . . .	173
6.4	Empirical tests of the CAPM . . . . .	176

6.5	Assessment of the CAPM . . . . .	179
6.6	The Fama and French three-factor (FF-3F) model . . . . .	183
6.7	Time for reflection: What have we learned? . . . . .	187
7.	Accounting Statements and Ratio Analysis . . . . .	193
7.1	Introduction . . . . .	194
7.2	The statements . . . . .	196
7.2.1	The income statement (Table 7.1) . . . . .	197
7.2.2	The balance sheet (Table 7.2) . . . . .	199
7.2.3	The self-locking nature of the Income Statement and Balance Sheet . . . . .	202
7.2.4	The statement of cash flows (Table 7.3) . . . . .	203
7.3	Ratio analysis (Table 7.4) . . . . .	207
7.3.1	The main ratios . . . . .	209
7.3.2	Du pont ratio analysis . . . . .	217
7.4	Common size analysis . . . . .	218
7.5	Time for reflection: What have we learned? . . . . .	220
8.	Financial Leverage . . . . .	225
8.1	Introduction . . . . .	226
8.2	Leverage of the firm's capital structure . . . . .	227
8.3	Debt and the economy . . . . .	230
8.4	Derivation of Modigliani and Miller's Propositions I and II . . . . .	231
8.5	The Modigliani and Miller propositions and the CAPM . . . . .	235
8.6	Consistency of the discounting of dividends model with leverage and the CAPM and MM propositions . . . . .	238
8.7	The MM propositions challenged . . . . .	243
8.8	An optimal debt leverage . . . . .	244
8.9	Time for reflection: What have we learned? . . . . .	246
9.	Valuation of Cash Flows . . . . .	257
9.1	Introduction . . . . .	258
9.2	Methods of discounting: The CFE ( $k_E$ ) and FCF (WACC) approaches . . . . .	261
9.2.1	The cash flow to equity (CFE) approach . . . . .	261

9.2.2	The operating free cash flow (FCF) discounted by the WACC approach . . . . .	264
9.3	Additional examples demonstrating consistency of the discounting methods . . . . .	267
9.4	The WACC as industry-favored approach . . . . .	272
9.5	Key elements of the cash flow . . . . .	273
9.6	Time for reflection: What have we learned? . . . . .	277
10.	Currency Exchange Rates . . . . .	287
10.1	Introduction . . . . .	289
10.2	The forces driving an exchange rate . . . . .	290
10.3	Manipulating exchange rates . . . . .	295
10.3.1	Currency conversion and the principle of dimensional consistency . . . . .	295
10.3.2	Direct and indirect quotes for currencies . . . . .	296
10.4	A model of exchange rates in response to interest rates and inflation: The parity conditions . . . . .	297
10.4.1	Purchasing power parity (PPP), relative purchasing power parity (RPPP) . . . . .	297
10.4.1.1	Relative purchasing power parity (RPPP) and percentage changes in currencies . . . . .	298
10.4.1.2	Relative purchasing power parity (RPPP) and “follow through” . . . . .	300
10.4.1.3	A reality check on purchasing power parity (PPP) . . . . .	303
10.4.2	Interest rate parity (IRP) . . . . .	303
10.4.2.1	A reality check on interest rate parity (IRP) . . . . .	305
10.4.3	Forward rate parity (FRP) . . . . .	306
10.4.3.1	The currency premium (or discount) . . . . .	309
10.5	Time for reflection: What have we learned? . . . . .	309
11.	Derivatives Instruments: Hedging (Speculating on) Currency Risk . . . . .	317
11.1	Introduction . . . . .	318
11.2	Forward and future contracts . . . . .	319

11.3	Options . . . . .	323
11.4	Options and foreign currencies . . . . .	325
11.4.1	Buyer of a call . . . . .	326
11.4.2	Seller (writer) of a call . . . . .	329
11.4.3	Buyer of a put . . . . .	331
11.4.4	Seller (writer) of a put . . . . .	332
11.5	Price discovery: Intrinsic and time value . . . . .	333
11.6	Speculating on foreign exchange . . . . .	333
11.7	Hedging corporate foreign exchange exposure . . . . .	336
11.8	Time for reflection: What have we learned? . . . . .	342
12.	Investment Decision-Making: Theory and Practice . . . . .	353
12.1	Introduction . . . . .	354
12.2	Investment decision making . . . . .	355
12.3	Time for reflection: What have we learned? . . . . .	362
13.	Equity Value and Personal Taxes . . . . .	365
13.1	Introduction . . . . .	366
13.2	Share returns and personal taxes . . . . .	366
13.3	Personal taxes and an imputation tax system . . . . .	371
13.4	Time for reflection: What have we learned? . . . . .	373
14.	Financial Leverage (Revisited) . . . . .	377
14.1	Introduction . . . . .	379
14.2	The tax deductibility of the firm's interest payments . . . . .	379
14.3	Alternative to Modigliani and Miller's derivation of the corporate tax shield (PVTs) . . . . .	386
14.4	The corporate tax shield challenged . . . . .	394
14.5	Adjustment to Equations (14.8)–(14.9) and (14.11)–(14.12) . . . . .	396
14.6	Time for reflection: What have we learned? . . . . .	399
15.	Valuation of the Firm's Cash Flows (Revisited) . . . . .	409
15.1	Introduction . . . . .	410
15.2	Alternative methods of discounting . . . . .	410

15.2.1	The adjusted present value (APV) method . . .	411
15.2.2	The capital cash flow (CCF) method . . . . .	412
15.3	Algebraic consistency between the adjusted present value (APV) and capital cash flow (CCF) methods of discounting and the CFE and WACC methods (of Chapter 9) . . . . .	413
15.3.1	The APV method . . . . .	414
15.3.2	The CCF method . . . . .	416
15.4	Recalculation of illustrative examples 9.3–9.5 from Chapter 9 with the APV and CCF ( $k_{AV}$ ) methods . . .	424
15.5	Time for reflection: What have we learned? . . . . .	431
16.	Ethical Behavior . . . . .	437
16.1	Introduction . . . . .	438
16.2	The meaning of ethical behavior . . . . .	439
16.3	Time for reflection: What have we learned? . . . . .	442
	SOLUTIONS to Multiple Choice Questions and Illustrative Examples . . . . .	443
	<i>Index</i> . . . . .	487
