<i>Foreword</i>	xiii
<i>Preface</i>	xv
<i>About the Author</i>	xix
<i>Acknowledgments</i>	xxi
<i>Notations</i>	xxiii
1. Introduction	1
1.1 A Brief History of Quantitative Finance	1
1.2 The 2008 Global Financial Crisis and Quantitative Finance	4
1.3 Fallacy of Prediction: White Kiwi	6
1.4 Beat the Market	9
1.5 Topics and Prospects of Quantitative Finance	12
1.6 Exercises	16
2. Brief Introduction to Four Major Asset Classes	21
2.1 Introduction	21
2.2 Stocks	22
2.3 Currencies	25

2.4	Commodities	29
2.5	Fixed Income	32
2.6	Other Investments	38
2.7	Exercises	39
3.	Principles of Quantitative Finance	47
3.1	Introduction	47
3.2	Uncertainty and Risk	48
3.3	Principles of Quantitative Finance	50
3.3.1	First principle: Return is fixed in the absence of risk	50
3.3.2	Second principle: Expected return is directly proportional to risk	51
3.3.3	Third principle: Every willing buyer has a willing seller	55
3.4	Relative Valuation	59
3.5	An Application of the Principles of Quantitative Finance	62
3.6	Violations of Three Principles?	65
3.7	Principles versus Models	68
3.8	Physics Envy?	69
3.9	Market Friction	73
3.10	Exercises	75
4.	Interest Rates	79
4.1	Introduction	79
4.2	Compounding Schemes	80
4.3	Zero-Coupon Yield Curve and Risks	82
4.3.1	Zero-coupon bonds and interest rate risks	83
4.3.2	Gurkaynak–Sack–Wright (GSW) dataset	87
4.3.3	Downward-sloping yield curve	88
4.3.4	U-shape and hump-shape yield curves	91
4.4	Interest Rate Risk and Bond Return	94
4.4.1	Return from the passage of time	95
4.4.2	Return due to the change in interest rate	96

4.5	Interest Rate Risk and the Yield	
	Curve Shape	98
4.5.1	A model of long-term risks	99
4.5.2	A model of short-term risks	102
4.5.3	Summary of a tale of long- and short-term risks	104
4.6	Liquidity Risk	107
4.7	Credit Risk	108
4.8	Exercises	110
5.	Derivatives with Linear Payoffs	113
5.1	Introduction	113
5.1.1	Linear payoffs	114
5.1.2	Nonlinear payoffs	115
5.2	Forward Forex Rate	116
5.2.1	Interest rate parity	117
5.2.2	Forward FX rates in practice	119
5.2.3	Non-Deliverable Forward (NDF)	120
5.3	Implied Forward Interest Rate	121
5.4	Forward Rate Agreement	122
5.5	Interest Rate Swap	126
5.6	Cross-Currency Interest Rate Swap (CIRS)	129
5.7	Discount Factors in Practice	130
5.8	Exercises	135
6.	Derivatives with Nonlinear Payoffs	137
6.1	Introduction	137
6.2	European and American Puts and Calls	139
6.3	Overall Shape of European Call Option	
	Price Function	142
6.3.1	Monotonous with respect to the strike price	142
6.3.2	Lower and upper bounds for the slope . . .	143
6.3.3	Convexity	145
6.4	Overall Shape of European Put Option	
	Price Function	147
